

## **Notification to FSANZ under subsection 13A(1A) of the Agvet Code**

1. Pursuant to subsection 13A(1A) of the Agricultural and Veterinary Chemicals Code (the Agvet Code set out in a Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*), the APVMA notifies FSANZ that, as a result of a review of a chemical by the APVMA (under Division 4 of Part 2 of the Agvet Code), a variation relating to the registration of a chemical product or the approval of a label may be made. In the APVMA's opinion it is likely that, if the variation is made, a variation to Standard 1.4.2 (Maximum Residue Limits) would be required.
2. Details of the chemical reviews are set out below:

### **Active Constituent**

Acephate  
Atrazine  
Azinphos-methyl  
Carbaryl  
Carbendazim  
Chlorfenvinfos  
Chlorpyrifos  
Diazinon  
Dichlorvos  
Dimethoate  
Diquat  
Fenamiphos  
Fenitrothion  
Fenthion  
Methiocarb  
Parathion-Methyl  
Polihexanide  
Procymidone  
Trichlorfon
